A. Purpose and Philosophy

Our Early Childhood (3-year-old) and Preschool (4-year-old) programs recognize the importance of high quality early instruction for all students, and it is in that spirit that our Early Learning Center implements the school district's vision and mission for our youngest students:

VISION

All students who pass through our halls shall be prepared for lifelong learning, responsible citizenship and a balanced, productive life.

MISSION

Hinsdale County School District is committed to building an equitable and safe learning environment utilizing our individual capabilities that exemplifies ethical, diverse and inclusive civic leadership.

B. Ages of Children Accepted

Our Preschool program is open to children who are 4 before August 1. Our Early Childhood program is open to children who are 3 before August 1.

C. Services Offered for Special Needs Students

In accordance with the Americans with Disabilities Act, the District does not discriminate based on disability or need for special education services in admissions, access to, treatment, or employment in educational programs or activities which it operates. The idea of a free and appropriate education extends to our youngest students and we will provide appropriate support necessary for all children, regardless of needs, to access the curriculum of the Early Learning Center.

D. 4-Day School Week and Daily Schedule

Our 4-day school week is in session Tuesday, Wednesday, Thursday, and Friday. Preschool (4-year-olds) meets Tuesday, Wednesday, Thursday, and Friday from 8:15 AM until 11:30 AM. H. Child Locate System

Staff will monitor attendance as students show up daily and parents sign them in. They will do head-counts following every location transition (from inside to outside, classroom to commons area, etc.), frequently during walking field trips, and periodically throughout the day.

Should a child become lost, staff will immediately search the area, then the child's last known location, then contact the district office, and then contact the Sheriff's Office for assistance.

I. Discipline Policy

Our programs incorporate Pyramid Plus based on the Pyramid Model for Supporting Social Emotional Competence in Infants and Young Children (Pyramid Model) which provides a tiered intervention framework of evidence-based interventions for promoting the social, emotional, and behavioral development of young children. The model describes three tiers of intervention practice: universal promotion for all children; secondary preventions to address the intervention needs for children at risk of social emotional delays, and tertiary interventions needed for children with persistent challenges. The Pyramid Model has been used by two national training and technical assistance (T/TA) centers: the Center on Social Emotional Foundations for Early Learning (CSEFEL) and the Technical Assistance Center for Social Emotional Intervention (TACSEI). Our Pyramid Plus program is incorporated into our school-wide Positive Behavior Intervention Support (PBIS) program CLIMB (Caring for Community, Leadership, Increasing Responsibility, Making Positive Choices, and Being Respectful).

Our program includes the implementation of a curriculum that fosters all areas of child development, the use of developmentally and culturally appropriate and effective teaching approaches, the design of safe physical environments that promote active learning and appropriate behavior, the provision of positive and explicit guidance to children on rules and expectations, and the design of schedules and activities that maximize child engagement and learning.

Behavior Crisis Plan

Definition of Crisis Situation: any situation that endangers the physical or emotional safety of a child, children, adults, or classroom equipment.

If the preschool classroom has a crisis situation, the following plan will be enacted:

1	Teacher's assistant organizes all children not involved and helps them move to the next closest classroom, outside, or safe part of the classroom.
2	Lead teacher stays with child in crisis
3	If needed, teacher's assistant will enlist help from other available staff.
4	Lead teacher and support staff help to de-escalate child.

Once The child calms down:

1	Arrangements are made to return group of children to the classroom.
2	Lead teacher calls child's parent to explain situation and asks them to pick up the child and take them home.
3	Lead teacher completes an incident report for parents to sign.
4	A meeting is scheduled with lead teacher and superintendent to review situation and plan for the return of the child.
5	Involved staff are debriefed on the situation and effectiveness of crisis management.

The superintendent will indicate in writing to the family whether the absence is excused.

Preschool students are tardy if they enter the classroom after 8:15. Please help your child arrive at school on time so he or she can begin the school day with the rest of the class and not interrupt lessons in progress.

Sexual Harassment (JBB)

The Board recognizes that sexual harassment can interfere with a student's academic performance and emotional and physical well-being and that preventing and remedying sexual harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn. In addition, sexual harassment is recognized as a form of sex discrimination and thus is a violation of the laws that prohibit sex discrimination, as addressed in policy AC.

District's commitment

The district is committed to maintaining a learning environment that is free from sexual harassment. It shall be a violation of policy for any staff member to harass students or for students to harass other students through conduct or communications of a sexual nature or to retaliate against anyone that reports sexual harassment or participates in a harassment investigation.

The district shall investigate all indications, informal reports and formal grievances of sexual harassment by students, staff or third-parties and appropriate corrective action shall be taken. Corrective action includes taking all reasonable steps to end the harassment, to make the harassed student whole by restoring lost educational opportunities, to prevent harassment from recurring and to prevent retaliation against anyone who reports sexual harassment or participates in a harassment investigation.

Sexual harassment prohibited

Unwelcome sexual advances, requests for sexual favors, or other verbal, non-verbal or physical conduct of a sexual nature may constitute sexual harassment, even if the harasser and the student being harassed are the same sex and whether or not the student resists or submits to the harasser, when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student's participation in an education program or activity.
2. Submission to or rejection of such conduct by a student is used as the basis for education decisions affecting the student.
3. Such conduct is sufficiently severe, persistent or pervasive such that it limits a student's ability to participate in or benefit from an education program or activity or it creates a hostile or abusive educational environment. For a one-time incident to rise to the level of harassment, it must be severe.

Any conduct of a sexual nature directed by a student toward a staff member or by a staff member to a student is presumed to be unwelcome and shall constitute sexual harassment.

Acts of verbal or physical aggression, intimidation or hostility based on sex, but not involving conduct of a sexual nature may also constitute sexual harassment.

Sexual harassment as defined above may include, but is not limited to:

1. sex-oriented verbal "kidding," abuse or harassment,
2. pressure for sexual activity,
3. repeated remarks to a person with sexual implications,
4. unwelcome touching, such as patting, pinching or constant brushing against the body of another,
5. suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's grades or similar personal concerns,
6. sexual violence.

Reporting, investigation and sanctions

Students are encouraged to report all incidences of sexual harassment to a teacher, counselor or principal in their school building and file a complaint, through the district's complaint and compliance process (AC-R). All reports and indications from students, district employees and third parties shall be forwarded to the compliance officer (AC-E-1).

If the individual alleged to have engaged in prohibited conduct is the person designated as the compliance officer, the complaint shall be made to the superintendent who shall designate an alternate compliance officer to investigate the matter.

All matters involving sexual harassment reports shall remain confidential to the extent possible as long as doing so does not preclude the district from responding effectively to the harassment or preventing future harassment. Filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or affect grades.

In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred shall be investigated.

Any student found to have engaged in sexual harassment shall be subject to discipline, including, but not limited to, being placed under a remedial discipline plan, suspension or expulsion, subject to applicable procedural requirements and in accordance with applicable law. Conduct of a sexual nature directed toward students shall, in appropriate circumstances, be reported as child abuse for investigation by appropriate authorities in conformity with policy JLF.

Notice and training

Notice of this policy shall be circulated to all district schools and departments and incorporated in all student handbooks.

All students and district employees shall receive periodic training related to recognizing and preventing sexual harassment. District employees shall receive additional periodic training related to handling reports of sexual harassment.

Homeless Students (JFABD)

It is the Board's intent to remove barriers to the enrollment and retention of homeless students in school in accordance with state and federal law. The district shall take reasonable steps to ensure that homeless students are not segregated or stigmatized and that decisions are made in the best interests of the student.

Each homeless student shall be provided services for which the student is eligible, comparable to services provided to other students in the school, regardless of residency, including transportation services, education services, vocational and technical education programs, gifted and talented programs, and school nutrition programs.

Homeless students shall be provided access to education and other services that they need to ensure that they have an opportunity to meet the same student performance standards to which all students are held. All educational decisions shall be made in the best interests of the student.

The district shall coordinate with other districts and with local social services agencies and other agencies or programs providing services to homeless students as needed.

The superintendent shall designate at least one staff member in the district to serve as the homeless student liaison and fulfill the duties set forth in state and federal law.

Decisions on enrollment and transportation for homeless students shall be made in accordance with regulation JFABD-

R.

NOTE 1: 'the term "homeless children." is defined in federal law to include the following:

Individuals who lack a fixed, regular and adequate nighttime residence; including

- children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement;
- children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- migratory children who are "living in circumstances described above.

NOTE 2 While the definition of homeless children in Colorado law closely tracks the definition in federal law, the federal law contains the following language which is NOT found in the Colorado law:

- "sharing the housing of other persons due to lack of housing, economic hardship or a similar reason"
- "trailer parks"
- "substandard housing"

Colorado school districts that receive federal funds are required to follow the more inclusive federal definition.

School District Safe Schools Policies Summary

The following policies have been adopted by the Board of Education to create a safe and effective learning environment to develop knowledge, skills and competence while respecting the rights of individuals and encouraging respect for authority and appropriate standards of conduct. These policies are intended to support the school district's mission statement to prepare students for advanced education, responsible citizenship and balanced, productive lives. The Board is committed to a uniform and fair enforcement of all rules.

The law requires that these policies be distributed each year. The policies are outlined below and each policy is available in its entirety for parent review at the Lake City Community School office. (Following each policy/regulation is the code for policies related to Colorado Senate Bill 133 for safe schools plans.)

A. Safe Schools Policy (ADD)

1. The superintendent has developed a safe schools plan that addresses
 - a. supervision and security of school buildings and grounds
 - b. supervision of students and visitors
 - c. training programs for staff and students and procedures for the following:
 - 1) crisis prevention and management and emergency response
 - 2) ways to respond to and report problem situations
 - 3) reviews of school security and whether all feel safe
 - 4) liaison with city/county officials (law, fire, medical)
 - 5) ways to respond to fire, accidents, natural disasters, traffic, and classroom/community safety concerns (Attached – Exhibit A)
2. The superintendent will prepare an annual safety report for the Board of Education, to be shared with the public and submitted to the state. In addition to information summarizing enrollment and attendance, dropout rates and class size, the annual report will address student conduct and disciplinary action regarding
 - a. dangerous weapons
 - b. alcohol, tobacco, drugs and controlled substances
 - c. disruptive behavior, assaults, or threats of harm
 - d. damage to school property
 - e. theft
 - f. other behavior that interferes with school safety and educational opportunity of other students

B. Component Policies of the Safe Schools Plan

1. **School District Mission (AD)** – see cover page of this handbook
2. **Student Conduct (JIC)** – The Board of Education has adopted a written student conduct and discipline code that is part of the student handbook shared with each student and posted or kept on file in each building.
3. **Student Dress Code (JICA)** – Student attire that is deemed likely to disrupt the teaching-learning process is not acceptable in school buildings, grounds or activities. A specific list of inappropriate attire is detailed in the

student handbook.

4. **Student Conduct in School Vehicles (JICC)** -- Riding in a school vehicle is a privilege and is contingent on observance of the student code of conduct as well as other regulations for safe conduct on school vehicles.
5. **Student Code of Conduct (JICDA)** – Twenty-four types of activities are specifically prohibited in school buildings, grounds, vehicles and school sponsored activities under S.B. 133 and are grounds for suspension or expulsion. Even attempts at these actions may result in disciplinary action. The student code of conduct precedes this policy summary.
6. **School-Related Student Publications (JICEA)** – This policy and school publications code is intended primarily to encourage free and open expression of ideas and protect the first amendment rights of students. Prohibited materials include those that are obscene, libelous, or illegal under state law, threaten violence, or that encourage violence, violation of school regulations, or substantial immediate disruption of school activities.
7. **Student Distribution of Noncurricular Materials (JICEC)** – This policy is intended to encourage and protect students' right to free speech while maintaining an orderly and safe school environment. The same prohibitions that apply to student publications apply to material in any media distributed by students. School equipment and supplies shall not be used for publication of such material. To distribute materials, a student must notify the superintendent at least one day in advance so details of time, place and manner of distribution can be arranged. Students do not have to produce an advance copy of materials for review.
8. **Student Expression Rights (JICED)** – This policy simply extends to every student the limitations of expression that apply to school-related publications and to student distribution of noncurricular materials. It lists ten types of expression that violate the law, the rights of others or community standards of decency that are prohibited. It is the explicit policy of the school district to encourage creative student expression and the opportunity to put into practice Constitutional values such as the right to free speech.
9. **Tobacco-Free Schools (ADC)** – Smoking, chewing or any other use of any tobacco products by staff, students and members of the public is banned from all school property.
10. **Advisory Committees (BDF)** – Advisory committees shall be formed and citizens appointed by the Board of Education and staff members assigned to each group. Other community groups are encouraged to offer suggestions and advice to the Board. All committee meetings shall be open to the public.
11. **School Board Policy Process (BG)** – Policy development is one of the Board's chief responsibilities. Policy proposals may originate with Board members, the superintendent, staff, parents, residents of the district, and consultants. Established procedures will be followed for adoption, revision or repeal of policies.
12. **School Visitors & Security/Access to Buildings (KI & ECA/ECAB)** -- The Board encourages parents/guardians and other citizens of the district to visit classrooms, activities and functions at any time to observe the work of the schools. During regular school hours, visitors shall report to the school office when entering and flow of traffic into and out of buildings shall be closely monitored. Access to buildings outside of school hours shall be limited to persons and organizations approved by the Board.
13. **Student Absences and Excuses (JH)** – Excused absences include illness, injury, mental or emotional disability, prearranged absences for appointments, work-study under school supervision and school-sponsored or approved activities of an educational nature. Make-up work shall be provided. The maximum number of unexcused absences before judicial proceedings to enforce compulsory attendance is 10. Make-up work shall be allowed but may receive only partial credit. At the end of the school year, if a student is not in attendance or enrolled in another school, home-study course, or on-line program and has been absent for six consecutive weeks, the student will be considered a "drop-out" and reported to the Department of Education.
14. **Bullying Prevention and Education (JICDE)** – The Board supports a secure school climate, conducive to teaching and learning that is free from threat, harassment and any type of bullying behavior. This policy promotes consistency of approach and helps create a climate in which all types of bullying are regarded as unacceptable.
15. **Secret Societies/Gang Activity (JICF)** – The Board prohibits any groups or gangs which advocate drug use, violence or disruptive behavior, or intimidation of students. Any apparel or accessory that denotes membership in gangs is prohibited on school premises.
16. **Drug and Alcohol Use by Students (JICH)** – Discipline including suspension or expulsion may apply to possession, use, sale, distribution or procurement of alcohol, drugs or other controlled substances including narcotics, hallucinogens, amphetamines, barbiturates, stimulants, depressants, marijuana, anabolic steroids, and even substances believed by the students to be such substances. The school district shall take an active role in cooperation with law enforcement, social services and other agencies in education regarding the dangers of use and in reducing illegal use of drugs and alcohol by school-aged youths.
17. **Weapons in School (JICI)** – Federal law requires expulsion for no less than one full calendar year for a student who is determined to have brought a firearm to school. The Board will apply disciplinary measures including expulsion for possession of any dangerous weapon on school property or at school-sponsored activities. This includes any knife, gun or firearm facsimile, or other objects that could be used to inflict serious bodily injury.
18. **Student Interrogations, Searches and Arrests (JIH)** – When a school official has reasonable grounds for suspecting that a search will turn up evidence that a student has violated either the law or Board policy, searches of

a student, the student's personal property and school property may be conducted. Anything found that is evidence of a violation of law or Board policy may be seized. The superintendent may request a search conducted by a law enforcement officer. Searches by law enforcement will be conducted in accordance with the requirements of applicable law. If law enforcement officials request permission to question students when in school or participating in school activities, the students' parent/guardian as well as the superintendent or designee shall be present and the interrogation should be in private. The parent/guardian will be notified of the search as soon as reasonably possible. An administrative report shall be prepared by the school official conducting the search. Within ten days after the search, the student may appeal the search decision.

19. **Student Discipline (JK)** – The objective of disciplining any student must be to help the student develop a positive attitude toward self-discipline and socially acceptable behavior. A remedial discipline plan may be developed for any student who causes material and substantial disruption in any school activities. A student who causes a material and substantial disruption three times during the school year shall be declared a habitually disruptive student which may result in the student's expulsion.

20. **Use of Physical Intervention and Restraint (JKA)** – Physical intervention or restraint may be used by any school employee to prevent wrongdoing or physical injury, in self-defense or protection of others, to obtain possession of dangerous objects, or to maintain discipline in an emergency situation that threatens bodily harm. Corporal punishment shall not be administered to any student.

21. **Disciplinary Removal from Classroom (JKBA)** – A teacher may immediately remove a student from the classroom if the student's behavior violates the Student Code of Conduct, is dangerous or disruptive, or seriously interferes with the teaching/learning environment. This removal may be informal for a short period of time after which the student is allowed to return or a formal removal. Before formal removal, the student should be warned that continued misbehavior may result in being removed from the classroom and possibly suspended or expelled. Formal removal will result in notification of parents/guardian and may involve a student-teacher-parent conference. After three formal removals, a student shall be officially removed from the teacher's class for the remainder of the term and a loss of credit may occur.

22. **Expulsion Prevention, Suspension/Expulsion of Students, and Educational Alternatives for Expelled Students (JKG, JKD/JKE & JKF)** – Expulsion is regarded as a punishment of last resort. Students who are identified as at risk of suspension or expulsion will (in conjunction with their parent/guardian) be provided with a plan for support services to help them avoid expulsion. As an alternative to suspension, if the teacher agrees and it is not disruptive, the student may remain if the parent/guardian attends class with the student. A suspension may be from one to twenty days. The Board has authority to expel a student for any period up to one year. A student or parent/guardian can request that educational services be designed to enable an expelled student to return to school, complete the GED or enroll in a non-public school. The services need not be provided on school property.

23. **Screening/Testing of Students (JLDAC)** – Parents/guardians' consent is required before students respond to a survey, assessment, analysis or evaluation related to certain personal information listed in this policy. Parents/guardians' consent is also required prior to psychiatric/psychological assessment of students by certified school personnel. However, a student age 15 or older may consent to receive mental health services when rendered by a licensed person or facility. Special education evaluation is governed by state and federal law and is outside the scope of this policy.

24. **Student Records/Release of Information on Students (JRA/JRC)** – Student educational records and personal information may be reviewed by the parent/guardian upon written request and they have the right to request amendments of records that can be supported by appropriate evidence. The superintendent from other districts or state agencies may request educational information. Disclosure of information requires written consent of parents/guardians; however, disciplinary information may be disclosed to any teacher who has contact with such students. Some information may be disclosed to Medicaid and criminal justice agencies. Directory information that may be released includes the student's name, date and place of birth, major, activity/sport participation, dates of attendance and degrees and awards received. Colorado law prohibits release of student telephone numbers and addresses. Names, addresses and home telephone numbers, as well as directory information, of secondary school students will be released to military recruiting officers within 90 days of the request unless a parent/guardian or eligible student submits a written request that such information not be released. Disclosure of personally identifiable information can be made without consent to school officials and teachers and to officials of other school districts or postsecondary institutions.

25. **Sharing of Student Records/Information between School District and State Agencies (JRCA)** – The Board may utilize all avenues under state law to obtain or share relevant student information when necessary to protect the safety and welfare of school district staff, visitors, students, property and the public.

26. **Crisis Management and Crisis Management Communication (KDE & KDEA)** – A crisis management plan has been prepared for disruptive events that threaten safety and security, whether or not they occur on school property. This plan includes written procedures for taking action, communicating with local law enforcement and emergency services, parents, students and the media. The plan includes staff training and aftermath services for

staff/students affected by trauma. A spokesperson for the district will coordinate information gathering and dissemination to inform staff, the media and the public of what is happening as soon as facts can be verified.

27. Relations with State Agencies (KLG) – To enhance the safety and security of students, staff and community, the Board shall cooperate with law enforcement officials, the juvenile justice system and social services. This proactive effort includes protection of the civil rights of individuals as well as guidelines for contacting state agencies and periodic review of security and safe school plans.

28. Violent and Aggressive Behavior (JICDD) – In order to preserve the type of learning environment to which the students and staff of this district are entitled, thirteen behaviors, categorized as violent or aggressive, will not be tolerated and shall result in immediate action being taken by the district.

C. Staff Personal Security and Safety (GBGB)

Offenses against school employees

The following procedures shall be followed in instances of assault, disorderly conduct, harassment, knowingly false allegation of child abuse, or any alleged offense under the “Colorado Criminal Code” by a student directed towards a teacher or school employee.

These same procedures shall be followed in instances of damage by a student to the personal property of a teacher or school employee occurring on school district premises.

1. The teacher or employee shall file a written complaint with the superintendent and the Board of Education.
2. The superintendent, after receipt both of the complaint and adequate proof of the charges, shall suspend the student for three days in accordance with established procedures.
3. The superintendent shall initiate procedures for the further suspension or expulsion of the student when injury or property damage has occurred.
4. The superintendent shall report the incident to the district attorney or the appropriate local law enforcement agency or officer who shall then investigate the incident to determine the appropriateness of filing criminal charges or initiating delinquency proceedings.
5. A copy of this policy shall be distributed to each student and posted in each school building.

Communication of disciplinary information to teachers/counselors

The superintendent shall communicate discipline information concerning any student enrolled in the district to all teachers and counselors who have direct contact with that student. Any teacher or counselor who is assigned a student with known serious behavior problems will be informed of the student’s behavior record. Any school employee who is provided this information shall maintain its confidentiality and shall not communicate it to any other person.

Student Records/Release of Information on Students – Policy (JRA/JRC)

In recognition of the confidential nature of student education records, no person or agency may access student education records without prior written consent from the student’s parent/guardian or the eligible student, except as set forth in law and this policy.

The superintendent or designee shall provide for the proper administration of student records in accordance with law, including the implementation of safeguard measures or procedures regarding access to and disclosure of student education records.

Content and custody of student education records

The superintendent is the official custodian of records in his or her building.

Student education records in all formats and media, including photographic and electronic, are those records that relate directly to a student. Student education records may contain, but will not necessarily be limited to, the following information: identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude and psychological tests; interest inventory results; health and medical information; family background information; teacher or counselor ratings and observations; reports of serious or recurrent behavior patterns and any individualized education program (IEP).

Student education records do not include records maintained by a law enforcement unit of the school or school district that are created by that unit for the purpose of law enforcement.

Nothing in this policy shall prevent administrators, teachers or staff from disclosing information derived from personal knowledge or observation and not derived from a student’s education records.

In accordance with applicable law, requests for inspection and review of student education records, requests for copies of such records, and disclosure of personally identifiable information therein shall be maintained as a part of each student’s education record.

School personnel shall use reasonable methods to authenticate the identity of parents, students, school officials, and any other party to whom they disclose student education records. Authentication of identity prior to disclosure of electronic records through passwords or other security measures shall be required.

Access to student education records by parents and eligible students

A parent/guardian (“parent”) has the right to inspect and review their child’s education records if the student is under 18 years of age. If a student is 18 years old or older (“eligible student”), the student may inspect or review his or her own education records and provide written consent for disclosure of such records and personally identifiable information therein. However, the parent is also entitled to access his/her child’s education records, despite the lack of written consent from the eligible student, if the eligible student is a dependent for federal income tax purposes or the disclosure is in connection with a health or safety emergency. Access to student education records by parents or eligible students shall be in accordance with the regulation accompanying this policy.

Request to amend student education records

A parent or eligible student may ask the district to amend a student education record they believe is inaccurate, misleading or otherwise violates the privacy rights of the student. Student grades cannot be challenged pursuant to this policy. Requests to amend a student education record shall be in accordance with the regulation accompanying this policy.

Disclosure with written consent

Whenever the district is required by law or policy to seek written consent prior to disclosing personally identifiable information from a student’s education record, the notice provided to the parent or eligible student shall contain the following:

- a. The specific records to be disclosed;
- b. The specific reasons for such disclosure;
- c. The specific identity of any person, agency or organization requesting such information and the intended uses of the information;
- d. The method or manner by which the records will be disclosed; and
- e. The right to review or receive a copy of the records to be disclosed.

The parent’s or eligible student’s consent shall only be valid for the specific instance for which it was given. Consent for a student to participate in any course, school activity, special education program or in any other school program shall not constitute the specific written consent required by this policy. All signed consent forms shall be retained by the school district.

Disclosure without written consent

The district may disclose student education records or personally identifiable information contained therein without written consent of the parent or eligible student if the disclosure meets one of the following conditions:

1. The disclosure is to a school official having a legitimate educational interest in the student education record or the personally identifiable information contained therein. In accordance with law, only those school officials who have a legitimate educational interest as described in this policy shall be permitted access to specific student education records.
 - a. For purposes of this policy, a “school official” is a person employed by the district as an administrator, supervisor, teacher or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the district has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, consultant or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student or other volunteer assisting another school official in performing his or her tasks.
 - b. A school official has a “legitimate educational interest” if disclosure to the school official is: (1) necessary for that official to perform appropriate tasks that are specified in his or her position description or by a contract agreement; (2) used within the context of official district business and not for purposes extraneous to the official’s areas of responsibility; (3) relevant to the accomplishment of some task or to a determination about the student; and (4) consistent with the purposes for which the data are maintained.
2. The disclosure is to officials of another school, school system or postsecondary institution that has requested the records and in which the student seeks or intends to enroll, or has enrolled. Any records sent during the student’s application or transfer period may be supplemented, updated or corrected as necessary.
3. The disclosure is to authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state and local educational authorities.
4. The disclosure is in connection with a student’s application for, or receipt of, financial aid.
5. The disclosure is to state and local officials and concerns the juvenile justice system’s ability to effectively serve,

prior to adjudication, the student whose records are disclosed as provided under the Colorado Open Records Act and Colorado Children's Code. Such records and personally identifiable information shall only be disclosed upon written certification by the officials that the records and information will not be disclosed to any other party, except as specifically authorized or required by law, without the prior written consent of the parent or eligible student.

6. The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions to develop, validate or administer predictive tests; to administer student aid programs; or to improve instruction.
7. The disclosure is to accrediting organizations for accrediting functions.
8. The disclosure is to the parent of an eligible student and the student is a dependent for IRS tax purposes.
9. The disclosure is in connection with an emergency, if knowledge of the information is necessary to protect the health or safety of the student or others.
10. The disclosure is to comply with a judicial order or lawful subpoena. Unless specified in the order or subpoena, the district shall make a reasonable effort to notify the parent or eligible student prior to complying with the order or subpoena.
11. The disclosure is of "directory information" as defined by this policy.

Disclosure of directory information

Directory information may also be disclosed without written consent of the parent or eligible student. "Directory information" means information contained in a student's education record that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information which may be released includes but is not limited to the student's name, email address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors and awards received, the most recent previous education agency or institution attended by the student, and other similar information. Directory information also includes a student identification number or other unique personal identifier displayed on a student ID badge or used by the student to access or communicate in electronic systems, but only if the identifier cannot be used to gain access to student education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a password known only by the authorized user.

Student telephone numbers and addresses shall not be disclosed pursuant to this section.

The parent or eligible student has the right to refuse to permit the designation of any or all of the categories of directory information if such refusal is received in writing in the office of the principal of the school where the student is in attendance no later than September 7 or the following Monday if September 7 is a Saturday or Sunday.

Disclosure of disciplinary information to school personnel

In accordance with state law, the superintendent or designee shall communicate disciplinary information concerning any student enrolled in the school to any teacher who has direct contact with the student in the classroom and to any counselor who has direct contact with the student. Any teacher or counselor to whom disciplinary information is reported shall maintain the confidentiality of the information and shall not communicate it to any other person.

State law requires the superintendent or designee to inform the student and the student's parent when disciplinary information is communicated and to provide a copy of the shared disciplinary information. The student and/or the student's parent may challenge the accuracy of such disciplinary information through the process outlined in this policy and accompanying regulation.

Disclosure to military recruiting officers

Names, addresses and home telephone numbers, as well as directory information, of secondary school students shall be released to military recruiting officers within 90 days of the request, unless a parent or student submits a written request that such information not be released. Reasonable and customary actual expenses directly incurred by the district in furnishing this information will be paid by the requesting service.

Disclosure to Medicaid

In all cases in which a student is enrolled in the Colorado Medicaid program, the district shall release directory information consisting of the student's name, date of birth and gender to Health Care Policy and Financing (Colorado's Medicaid agency) to verify Medicaid eligibility of students. The district shall obtain written consent annually from a parent before the release of any non-directory information required for billing. To accomplish this, the district shall include a consent form with the "start of school" information each fall and include a consent form with IEP packet materials.

Disclosure to the Colorado Commission on Higher Education (CCHE)

On or before December 31 of each school year, the school district shall disclose to the CCHE the names and mailing addresses of those students enrolled in the eighth grade for use in mailing the notice of postsecondary educational opportunities and higher education admission guidelines as required by state law.

Annual notification of rights

The district shall notify parents and eligible students of their rights pursuant to this policy at the beginning of each academic year. For notice to parents or eligible students who are disabled or whose primary or home language is other than English, the format or method of notice will be modified so it is reasonably likely to inform them of their rights.

A copy of the Family Educational Rights and Privacy Act, and this policy and accompanying regulation and exhibit may be obtained from the office of the superintendent during normal business hours.

Governing law

The district shall comply with the Family Educational Rights and Privacy Act (FERPA) and its regulations as well as state law governing the confidentiality of student education records. The district shall be entitled to take all actions and exercise all options authorized under the law.

In the event this policy or accompanying regulation does not address a provision in applicable state or federal law, or is inconsistent with or in conflict with applicable state or federal law, the provisions of applicable state or federal law shall control.

Student Records/Release of Information on Students -- Regulation (Review, amendment and hearing procedures)

In accordance with policy JRA/JRC, this regulation contains the procedures to follow when a parent or eligible student seeks to review or challenge the content of student education records.

Request to review student education records

1. The parent or eligible student shall submit a written request to the superintendent attended by the student, asking to review the student's education records.
2. Upon receipt of the written request, the superintendent or designee shall set a date and time for inspection and review of the records (usually within three working days after the request has been made).
3. The parent or eligible student shall examine the student's education records in the presence of the superintendent and/or other person(s) designated by the superintendent. The record itself shall not be taken from the school building.
