McKinney-Vento Education for Homeless Children & Youth Program

PURPOSE

The intent of the McKinney-Vento Education for Homeless Children and Youth program is to remove all educational barriers facing children and youth experiencing homelessness, with an emphasis on educational enrollment, attendance and success.

WHO QUALIFIES

Children or youth who lack a fixed, regular or adequate nighttime residence qualify for the McKinney-Vento Education for Homeless Children and Youth program, as amended by the Every Student Succeeds Act (ESSA). This includes children and youth who:

- Share the housing of other persons due to loss of housing, economic hardship
 or a similar reason; are living in motels, hotels, trailer parks or camping
 grounds due to the lack of alternative adequate accommodations; are living
 in emergency or transitional shelters; or are abandoned in hospitals;
- Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- Live in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings; and
- Are migratory children.

Many homeless families with children, and unaccompanied youth, are forced into motels or other temporary situations because there is no family or youth shelter available in the community. If shelters are available, many are full, or may have policies that separate the family or prohibit unaccompanied minors.

Children and youth in doubled-up and motel situations are extremely vulnerable, living in precarious, unstable and sometimes unsafe conditions. They may suffer the life-long impacts of toxic stress if their living situations are not stabilized.

UNACCOMPANIED HOMELESS YOUTH

In addition to providing a definition of homeless, the McKinney-Vento Act defines unaccompanied youth as youth who fit the definition of homeless and are "not in the physical custody of a parent or guardian" [42 U.S.C. § 11434a(6)].

- The number of unaccompanied homeless youth identified and served in Colorado public schools continues to rise, from 1,325 in the 2009-10 school year to 2,058 in the 2016-17 school year. The 55 percent growth reflects changing demographic and differing needs of this population.
- These youth are among the most vulnerable, as they are dealing with the
 crises of homelessness without a safe, supportive parent or guardian.
 Education is reported as the most stable element in their lives, however,
 access and attendance can present as barriers.

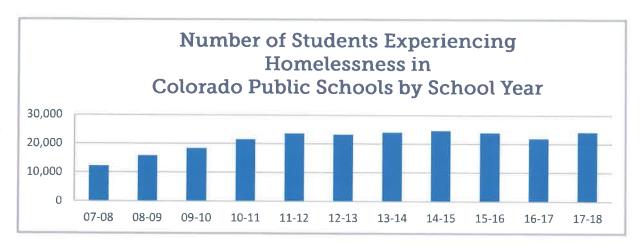

Educational Rights of McKinney-Vento Eligible Children and Youth
